Moving Freight in the Right Direction

Vector Transport offers shippers and manufacturers Advanced Shipping Sense.

Vector Transport sets a new standard for shipping. This new standard means that your loads are delivered on time, fully insured, and that your company can use Vector's freight planning experts to streamline your shipping efforts—without a tightly binding contract.

Your shipment is in good hands with our Vector Certified Carrier Program.

Only the best drive under the Vector name. Each of our 11,000 carriers undergoes a

rigorous three-step certification process, including an extensive background, safety, and reference check. Plus, we pay carriers within 14 days of delivery, a huge incentive that inspires excellence.

Three other advantages of Advanced Shipping Sense:

1. Streamline Planning Efforts.

Vector helps you plan ahead with Advanced Shipping Sense.

2. No Long-Term Contracts.

There are never any long-term binding contracts. We can help with your immediate shipping needs or your long-term freight plans.

3. Always In Touch.

There is always a live person to take your call.

Vector Transport has you covered—guaranteed.

Vector Transport uses a \$100,000 TIA Performance Certified Surety Bond, providing ten times the industry standard of shipper protection.

Transport is not a Monday-Friday, 9-to-5 business. That's why you can always reach us, 24 hours a day, seven days a week, to check on your freight—your livelihood.
